OBJECTIVE

Motivated and detail-oriented Full Stack Developer with strong expertise in Java, Spring Boot, and front-end technologies such as HTML, CSS, JavaScript, and React. Seeking to leverage my skills in building scalable web applications and providing innovative solutions in a challenging development environment. Eager to contribute to the success of a dynamic development team by delivering high-quality software solutions and enhancing user experiences.

TECHNICAL SKILLS

- **Programming Languages:** Java (OOP, Multithreading, Collections Framework, Stream API), JavaScript

- **Frontend Technologies**: HTML, CSS, Bootstrap, React

- **Backend Technologies**: Spring, Spring Boot (MVC and REST API), JSP, JDBC.

- **Databases**: Oracle (SQL&PL SQL), MySQL, MongoDB, H2DB.

- **Tools**: Maven , Git, GitHub, Junit, Mockito, Postman, Swagger , Agile & Jira, Log4j, SonarQube.

- **IDEs**: Eclipse, IntelliJ, and Visual Studio Code.

EDUCATION

Rajiv Gandhi University of Knowledge Technologies, Nuzvid (APIIIT)

Mechanical Engineering	**CGPA:** 8.0	**2019 – 2023.**
Pre University Course (PUC)	**CGPA:** 7.9	**2017 – 2019.**

Zilla Parishad High School (ZPHS) Kakarla

Secondary School Education (10th Class)	**CGPA**: 10.0	**2017.**

PROJECTS

Blog Application

Technologies: Spring Boot, Thymeleaf, MySQL, Spring Security.

Description:

Developed a full-stack blog application with features such as user authentication, post management (CRUD), and comment sections. Utilized Spring Boot for the backend and Thymeleaf for server-side rendering. Integrated MySQL as the database for efficient data storage. Enabled role-based access control using Spring Security.
